FINDINGS

PA1: Social Management System

Site: Dekko Garments Ltd. | Site amfori ID: 050-000105-002

Question: 1.1 Is there satisfactory evidence that the auditee has set up an effective management system to implement the amfori BSCI Code of Conduct?

ENGLISH

Finding

Through plant tour, documents review, worker & management interview it was noted that facility has developed social policy and procedure to implement amfori BSCI COC in its activities and assigned personnel for monitoring. However, gaps have been identified in Social Management System, Fair Remuneration & Occupational Health and Safety.[Reference: Requirement of amfori BSCI System Manual] This question is rated as partial because facility has fulfilled the other expectations of this section.

PA 5: Fair Remuneration

Site: Dekko Garments Ltd. | Site amfori ID: 050-000105-002

Question: 5.4 Is there satisfactory evidence that the auditee provides sufficient remuneration that allows workers to meet a decent standard of living?

ENGLISH

Finding

During living wage calculation record review and management interview it was noted that the factory has collected various data for calculating living wage and based on that, a living wage has been figured out by the facility and identified the potential gap between present local remuneration and living wage. However, no proper action plan is in place to fill the the potential gaps between present local remuneration and living wag. [Reference: Requirement of amfori BSCI System Manual]

This question is rated as partially because facility management has completed fair remuneration quick scan template for 100 sample workers and the factory has collected various data for calculating living wage for this region considering food cost, housing cost, education cost etc. Also, facility has fair shop where employee can buy grocery at much reasonable price than the market price which is often high.

PA 7: Occupational Health and Safety

Site: Dekko Garments Ltd. | Site amfori ID: 050-000105-002

Question: 7.1 Is there satisfactory evidence that the auditee observes occupational health and safety regulations applicable for its activities?

ENGLISH

Finding

Based on documents review, management & worker interview it was noted that the facility is in the process

Finding

of implementing health and safety-related legal requirements. However, gaps were identified concerning risk assessment and personal protective equipment's.

[Reference: Requirement of amfori BSCI System Manual]

This question is rated as partially because facility management has fulfilled the other requirements of this questionnaire.

Question: 7.3 Is there satisfactory evidence that the auditee set up an effective management system that ensures they regularly carry out risk assessments for safe, healthy and hygienic working conditions?

ENGLISH

Finding

Facility has done risk assessment but there were some areas which was not under assessment coverage and no action has taken yet to proper monitoring.

i) During plant tour and management interaction it was observed that, facility management has not identified potentials risks factor for work in progress goods in sewing section which might create risks of safe evacuation or tripping hazards.

ii) During plant tour empty cartoons were observed stacked in excessive height in the shelf at accessories store. Moreover, there was no fencing to avoid the falling hazard, which may cause accident or injury after falling on workers.

[Reference: Bangladesh Labor Rules 2015, Schedule 4(2), B (1)]

This question is rated as partially because facility management has fulfilled the other requirements of this questionnaire.

Question: 7.6 Is there satisfactory evidence that the auditee enforces the use of PPE to provide protection to workers alongside other controls and safety systems?

ENGLISH

Finding

Facility management ensured PPE (Personal protective equipment) to all workers, but during plant tour, some gaps were noted using PPE in the production floor-

i) Snap button operators were not using eye protection while working at the ground floor of main production shed.

ii) 10% workers of all over the production areas were not using facemask during work on the 1st and ground floor of main production shed.

[Reference: Bangladesh Labor Rules, 2015 Rule 67 (2)]

This question is rated as partial because facility has provided PPE and provides training to all relevant workers.
